

Documentary

The Heroes of Football project is filming international football players, directors and supporters for a documentary that will show if the world of football is ready for LGBTIQ-inclusion, and if players feel ready to come out.

Football clubs and educational organisations can use the documentary to start a debate about LGBTIQ-inclusion and possible barriers for sports people to come out in their club and sport environment.

The documentary will be broadcasted by national broadcasters in Europe and will be available on **the Heroes of Football website** in 2017.
